Mission Statement Hyde School provides students with a comprehensive, co-curricular college preparatory education through challenging academic work, a rigorous character and family education curriculum, and opportunities for community leadership. Our mission: develop character to discover unique potential.

General Hyde School is an independent, coeducational college preparatory boarding school with emphasis on helping students discover their strengths and grow as confident leaders prepared for their future. We believe that for students to succeed – now and for the rest of their lives – they must develop the values, habits, and resilience that are the hallmarks of strong character.

Our boarding school campus is located in Bath, Maine with approximately 110 students, one hundred percent of which are boarding students. Students who attend come from throughout the United States and international locations, including the continents of Asia, Europe, and Africa.

Admissions Hyde School admits students without regard to race, nationality or gender, who demonstrate academic aptitude and a desire to develop strong personal character and leadership. Admission to Hyde is based on a review of the student’s prior academic record, educational testing, and an in-depth interview of the student and family. Due to the character education aspect of the curriculum, it is preferred that students spend a minimum of two years at the school prior to graduation.

Accreditation Hyde School is accredited by the New England Association of Schools and Colleges (NEASC).

Curriculum As a college preparatory school, Hyde School’s co-curricular learning program requires rigor in all aspects of a student’s experience. The academic year operates on a trimester basis. Advanced Placement and Honors courses are offered, as well as academic support classes on an as needed basis. Students carry five to six college-preparatory academic courses, as well as the Hyde Character and Leadership Seminar, participate in interscholastic athletics each season, perform daily campus jobs, participate in multi-media performing arts productions, engage in community leadership in partnership with faculty, and regularly evaluate their character growth with input from peers, parents, and faculty.

In grades 9 through 12 students must earn a minimum of 18 academic credits, distributed as follows:

English	4	Science	3	Social Studies	3
Mathematics	3	Foreign Language	2	Electives/Arts	3

Grading	<u>A</u>	<u>B</u>	<u>C</u>	<u>D</u>	<u>F</u>
	100 - 90	89 - 80	79 - 70	69 - 65	Below 65

In the classroom, student performance is evaluated based on academic achievement and learning attitude. Grade point averages on a 100-point scale are weighted for AP (ten points) and honors (five points) courses. The cumulative average is based on years at Hyde School only—prior high school grades are not

included in the reported cumulative GPA; although the grades are included on the official transcript. We do not rank our students.

Graduation

Seniors demonstrate considerable leadership in partnership with the faculty. Every aspect of student life on campus encourages seniors to serve as role models and set the tone for the school-wide character culture.

Hyde School's graduation requirements embody a quest for personal excellence in academic achievement and character education. In addition to satisfactorily completing the academic requirements, every senior participates in an intense 40-hour personal character evaluation process. This occurs during the final trimester of his/her/their senior year and involves all members of the senior class and the faculty. The evaluation culminates with seniors making a speech representing their personal principles and standards.
